PEOPLE IN THE NEWS

Steve Stowers

Steven G. Stowers has been promoted to partner and will be responsible for developing sustainable initiatives, contracts and programs. His seven years of experience with the firm includes site analysis, design and construction administration for a variety of educational and commercial facilities. He served as the project architect for the recently completed Georgia Southern University's Center for Art and Theatre and for the Liberty County Development Authority Office Building in Hinesville. He also serves as project coordinator for the LEED-certified projects designed and administered by the firm. He is the 2008 president of the Savannah Chapter of the American Institute of Architects (AIA) and secretary of the Virginia Tech Alumni Chapter of Savannah. He received his Bachelor of Architecture from Virginia Tech and a degree in business from the Pamplin College of Business.

Alejandro Silva has been promoted to director of visual communications and will be responsible for photo-realistic renderings, production of marketing materials, videos, digital imaging, project management and master-plan development as well as Web site design and implementation. He is currently developing Web sites for Duloherly Weeks, Inc. and Daniel Lumber, as well as Lott + Barber's own site. Before joining the firm, he was a senior project designer for a residential development company. He also teaches courses in building information modeling at the Savannah College of Art and Design, where he graduated with a Master of Architecture in 1996.

Alejandro Silva

Denise Grabowski

Denise R. Grabowski has been named director of community planning, and she directs and supervises Lott + Barber's planning projects, including long-range community plans, master plans and redevelopment projects. She is currently working with the City of Statesboro to develop its comprehensive plan and is also involved in several community sustainability initiatives as a member of the U.S. Green Building Council Savannah-Chapter Board and through the Chatham Environmental Forum. She received a B.S. in environmental science from Furman University and a Master of City Planning from Georgia Tech, and is also a graduate of the Institute for Georgia Environmental Leadership.
